

# Welcome to the Farmwell Hunt Clubhouse!

This guide explains exactly how all of the furniture should be positioned after you use it today?

- 1: The two burgundy love seats must be positioned in front of the windows separated by the small table and ficus tree. Please do not push the sofas into the wall!
- 2: The three hardwood tables should be positioned as pictured with the 8 cushioned folding chairs and the one arm chair.

Here is another perspective on the two love seats. Notice the positioning of the center end table and tree.

The kitchen counters should be FREE of all materials. Place unwanted napkins and utensils in the drawers.

The single sofa should be placed at an angle in the corner adjacent to the closet.  
The small table with phone should be placed in front of the flat screen monitor.

Extra chairs and tables should be stacked inside the two closets.

Our main entry way should be left as displayed in the picture at left.

No debris, books, or pamphlets should be left on the main table.
